

# **NAVSEA POLLUTION PREVENTION WORKING GROUP CHARTER**

**DRAFT**

**18 June 2002**

## **Purpose**

The NAVSEA Pollution Prevention Working Group (P2WG) will support the NAVSEA mission by enhancing pollution prevention activities, actions and awareness throughout the NAVSEA acquisition, afloat technical support, and ashore communities. The P2WG will also provide this service to other Navy and Joint communities where mutually beneficial. The P2WG will identify, recommend, promote and support pollution prevention opportunities that improve quality of life and mission readiness and reduce environmental total ownership costs, workload, and risks to human health and the environment. The P2WG will also relay product development and demonstration information to NAVSEA for potential applications. The P2WG's pollution prevention hierarchy is source reduction, reuse, recycling, treatment, and environmentally sound disposal.

## **Organization**

The NAVSEA 00T Pollution Prevention Program Manager will chair the working group.

Permanent membership will include, but not be limited to, representatives from NAVSEA 00T, naval shipyards, undersea warfare centers, surface warfare centers, SUPSHIPs, the Program Executive Offices (PEOs), Program Managers (PMs) and the NAVSEA technical support community. Ad-hoc-Membership includes but is not limited to representatives from the Fleet Type Commanders (TYCOM), other Navy Major Claimants, Board of Inspection and Survey (INSURV) and Navy Occupational Safety, Health, and Environmental Training Center (NAVOSH ETC).

## **Responsibilities**

Chair responsibilities: Attend meetings, establish agenda, distribute minutes, collect metrics data, identify, prioritize and implement pollution prevention projects, complete assigned action items, be prepared for meetings, and share information with the NAVSEA communities.

Member responsibilities: attend meetings, host rotating meetings, provide feedback and updates to the chair, identify and help prioritize and implement Pollution Prevention projects and issues, complete assigned action items, be prepared for meetings, participate on P2 WG Subcommittees, and share information with members of their respective communities.

## **Objectives**

Identify and implement pollution prevention opportunities within NAVSEA, and assist with common Navy and Joint Services opportunities.

Provide pollution prevention products such as technology, recommendations, solutions, problem definitions, detailed analyses, reports, or alternatives on subjects that impact NAVSEA, Navy and the Joint Services.

Promote, champion and support pollution prevention awareness to support Environmental, Safety, and Occupational Health integration within NAVSEA, the Navy and the Joint Services.
